DAY 1 OF GLOBAL INVESTORS' SUMMIT

RIL, Tata, Birla commit over ₹1 trn in UP

FE BUREAU New Delhi, February 10

RELIANCE INDUSTRIES (RIL) CHAIRMAN Mukesh Ambani and Aditya Birla Group chairman Kumar Mangalam Birla on Friday committed investments worth ₹75,000 crore and ₹25,000 crore, respectively, in Uttar Pradesh with plans to expand their businesses in the state in the near future.

(From left) Reliance Industries chairman Mukesh Ambani, Tata Sons chief N Chandrasekaran and Aditya Birla Group chairman Kumar Mangalam Birla attend the UP Global Investors' Summit, in Lucknow on Friday

Besides, Tata Sons chairman N Chandrasekaran said group firm Air India SATS will set up an integrated multi-modal cargo hub at the upcoming Jewar airport in partnership with Zurich Airport. The announcements were made on the opening day of the three-day UP Global Investors' Summit.

Chandrasekaran said Air India has plans to connect every part of UP to the rest of India and potentially to important destinations of the world.

The three industry leaders said the country is on a strong growth path, emerging as a truly global champion in many sectors and the target of becoming a \$25-trillion economy, when it celebrates 100th year of Independence, is achievable.

They credited Prime Minister Narendra Modi for guiding the country with a vision and laser-sharp focus on execution towards a bold new India, and added that the Union Budget 2023-24 has laid the foundation for the country to emerge as a developed nation.

Ambani also announced a foray into the bioenergy business, converting agriculture waste into gas, which can be used as fuel in industries, run automobiles or light kitchen stoves. He said his group will set up 10 gigawatt of renewable energy capacity and roll out 5G services across the state in the next 10 months.

Adani Group chairman Gautam Adani, currently battling allegations of market manipulation, was conspicuous in his absence at the event. He has attended similar events in UP as well as in other states in the past.

In his address, Ambani said that RIL's investment of ₹75,000 crore will be for rolling out 5G mobile telephony services, expanding retail network, and setting up renewable energy capacity over the next four years.

Similarly, Birla said his group's ₹25,000-crore investment will be across its various businesses such as cement, metals, chemicals, financial services and renewable energy.

He said that the state is making "that UP can rightly be considered one of the key states, driving India's journey towards a \$5-trillion economy."

He said the group's hotel business "sees tremendous opportunities in the state because of the tourism that's going to come, both religious as well as wildlife, and other aspects that attract tourists".

He added, "Therefore, we are committing further investments to the tune of ₹25,000 crore across our businesses, cement, metals, chemicals, financial services and renewable energy," he added.

Birla also said the group's seven businesses have a significant presence in Uttar Pradesh, anchored by over 30,000 employees with an overall investment of ₹40,000 crore.

"I am happy to say that we are going to build an integrated multimodal air cargo through Air India SATS with our partner Zurich Airport in the new Jewar airport," Chandrasekaran said.

Air India SATS is the ground handling services arm of Air India.

He said the group already has a significant presence in Uttar Pradesh through steel, automotive, retail, financial and power firms along with TCS.

"Eighteen companies of Tata group are deeply present (in UP)," he said, adding that 50,000 people are employed.

But the state now inspires hope. "Within five or six years, UP has established a new identity for itself," he said, indirectly referring to this period under a BJP government in the state.

"Now, UP is being identified by better law and order, peace and stability. Now, wealth creators here will get new opportunities," Modi said.

Uttar Pradesh, with its ambitious plan to raise its gross state domestic product to \$1 trillion, is aggressively seeking private investments to boost aggregate demand in the state.

The state's focus is proping up both consumption and investment demand, and upgrading the physical infrastructure to attract investors — both domestic and foreign.

UP a major destination for FDI in India, says PM

FE BUREAU New Delhi, February 10

PRIME MINISTER Narendra Modi on Friday said India's rapid growth is a critical driver of world prosperity now, and pitched Uttar Pradesh as a major destination for foreign investment in the country.

PM Narendra Modi inaugurates the UP Global Investors' Summit, in Lucknow. (From left) UP governor Anandiben Patel, defence minister Rajnath Singh and CM Yogi Adityanath are also seen

"If India is a bright spot for the world, it is Uttar Pradesh which is driving the growth of India," he said at the inaugural session of the three-day Uttar Pradesh Global Investors Summit in Lucknow.

The Prime Minister said India now is driven by an aspirational society.

"Today, the aspirations of the society of India are giving a push to the governments. And, these aspirations are also bringing speed to developmental work. Today, India is carrying out reforms not out of compulsion but out of conviction."

Modi said Uttar Pradesh was once known as a "BIMARU" state, referring to an acronym for Bihar, Madhya Pradesh, Rajasthan and Uttar Pradesh. "BIMARU" also means sick in Hindi.

Defence minister Rajnath Singh, Uttar Pradesh governor Anandiben Patel and chief minister Yogi Adityanath were also present at the launch of the summit.
